### **Overview:**

FIRN in partnership with the University of Queensland (UQ) will be organizing the inaugural FIRN Asset Management meeting from 16<sup>th</sup> to 17<sup>th</sup> June 2022. The aim of this meeting is to develop a vibrant and interconnected academic community (both domestic and international) to discuss current issues and recent research on asset management in a stimulating and relaxing environment. In doing so, we hope to stimulate further research collaborations between local FIRN members and well-known international academics. Given the current uncertainty with COVID-19, it will be organized in the form of a hybrid meeting.

We welcome both theoretical and empirical papers on all topics in asset management and investment. Potential topics include, but are not limited to: mutual funds, hedge funds, pension funds, private equity funds, ETFs, active versus passive management, sustainable investing, performance measurement, fund disclosure, institutional investors' incentives, and the impact of COVID-19 and social media on asset management industry.

The Asset Management meeting will be held over two days with strong emphasis on high quality research on emerging issues related to asset management and investment. To provide support to early career researchers (ECRs), there will be dedicated sessions for ECRs who are within five years of the awards of their PhDs.

### **Location:**

Given the current uncertainty with COVID-19, it will be organized in the form of a hybrid meeting (i.e. Virtual Conference and UQ Brisbane City Campus).
